

Trading Card Creation

You have been asked by a company who makes cereal and cereal boxes to create a trading card of a First Nation person that could be put inside each one of their cereal boxes so that children can learn about each one. The trading card needs to show how First Nations and Métis support Saskatchewan. All trading cards need to have the same headings. The company has created a checklist to help make sure the all the parts of the trading card are completed like they would like.
